

Confined Space Training

29 CFR 1910.146

WHEN: November 5, 2009
8:00 am - 3:00 pm

WHERE: Complete Safety Solutions
70 Lititz Road
Lititz, PA 17543

CO ST: \$185/Student

Course Description:

This course is designed to help your employees meet the requirements of OSHA 29 CFR 1910.146, Permit-required Confined Spaces. The class provides an overview of the current regulations that affect those working around confined spaces. Discussions include work practices such as atmospheric monitoring, lockout/tagout, ventilation, hot work, rescue requirements, as well as identifying the duties and responsibilities of attendants, entrants and entry supervisors.

The new proposed “Confined Space Standard for Construction, OSHA 29 CFR 1926.1200” will also be addressed. This standard is on the Department’s Semiannual Agenda of Regulations and is expected to have a ruling by April 2010. We will briefly introduce the proposed classifications and significant changes that may be rolled out by this standard.

Class Presented in partnership
with Complete Safety Solutions and
Med-Tex Services, Inc.
